

**Commercial Heavy Duty Slow Close Plastic
Seats Designed with Premium Features**

by:

PLUMBTECH™

**Model 271 Elongated
Closed Front**

**Model 371 Elongated
Open Front**

What Is The Need and Opportunity for Commercial Heavy Duty Slow Close Plastic Seats?

- The demand for commercially oriented toilet seats is growing at a double digit annual rate.
- The growth of commercial toilet seats includes the increased demand for commercial models with a cover.
- Premium features such as slow closing are also experiencing a double digit growth in demand for commercial applications.
- Combining a heavy duty commercial seat that includes a cover, with the slow close feature, captures the demand for two separate growth opportunities, in a single unit.
- Wholesalers are in need of competitive advantages, via special features and pricing, to grow their market share of the commercial seat market.
- The goal is to provide Plumbing Wholesalers with a heavy duty commercial slow closing seat, with features that contractors demand, at a competitive advantage.
