

Plastic Seats Designed for Residential, Remodel and Hospitality Applications

by:

PLUMBTECH™

Model 204 Elongated

Model 203 Round

What are the Needs and Opportunities for Residential/Builder Quality Plastic Seats?

- The residential market is always evolving and searching for ways and means to bend the cost curve while maintaining the overall quality of the final product.
- The hospitality segment has similar needs, especially for a highly durable, stylish modern design, that is easy to install and maintain, and budget friendly.
- Additionally, consumers and homeowners are more conscious than ever regarding extra styling and new features.
- Our market surveys indicate as much as 50% of new home owners are replacing the toilet seats installed by the contractor within weeks of purchasing the home.
- Nearly all bathroom remodels involve replacing the toilet seat.
- The overwhelming majority of these replacement seats are purchased in retail stores or online.
- The clear goal is to provide plumbing wholesalers with an upgrade plastic seat, with premium features that meet the consumer and contractor demands and budgets.
