

2 Inch Lift Commercial Extra Heavy Duty Plastic Seat for Handicapped

by:

PLUMBTECH™

Model 432C-00AM

What Is The Need and Opportunity for a 2 Inch Lift Seat for Handicapped?

- The global handicap toilet seat market is expected to grow at 7.3% annually through 2030.
- This growth can be attributed to the increasing awareness about hygiene and sanitation, coupled with the rising number of disabled populations.
- Management of hospital, public area, hospitality and other bathroom spaces continue to recognize the growing need, demand, and availability of toilet seats for the handicapped population.
- Due to the demand for extra durable and secure applications, there is a critical need for commercial seats that meet a higher standard.
- Wholesalers are in need of competitive advantages, via special features and pricing, to grow their market share of the commercial seat market.
- The goal is to provide Plumbing Wholesalers with an extra heavy duty commercial seats, that meet the expected requirements, and then go beyond with features that differentiate their offering.
