

Heavy Duty Juvenile Plastic Seats

by:

PLUMBTECH™

Model 461SSC-00AM Juvenile Seat

What Is The Need and Opportunity for Heavy Duty Juvenile Plastic Seats?

- The National Center for Education Statistics estimates that up to 15% of all U.S. households have at least one child under 6 years of age.
- Research projects a 4.18% annual growth rate through 2030 for child care facilities.
- Juvenile seats are specified for many projects creating built in, self-perpetuating demand.
- There is a continual emphasis on improving sanitation conditions and safety at child care and public spaces.
- Additionally, there has been a double digit annual growth or demand for seats that don't slam.
- Due to the demand for extra durable and secure applications, there is a critical need for juvenile seats that meet a higher standard.
- Wholesalers are in need of competitive advantages, via special features and pricing, to grow their market share of the commercial seat market.
- The goal is to provide Plumbing Wholesalers with heavy duty juvenile seats, that meet the expected requirements, and then go beyond with features that differentiate their offering.

Features and Benefits of PLUMBTECH Heavy Duty 461SSC-00 Juvenile Seat

- Heavy Duty weight and design.
- Constructed of 100% virgin polypropylene-no fillers, extenders, or regrind.
- 304 grade stainless steel hinge post and hardware.
- Strong & Durable - injection molded, high impact, chemically resistant.
- Contains antimicrobial ingredient to retard growth of odor and stain causing bacteria.
- Ergonomic comfort curve designed seat ring with contour provides greater comfort and support.
- External check hinge holds seat at 11 degrees beyond vertical.
- External self-sustaining hinge holds at 45 degrees before vertical.
- Hinges are under seat to minimize pinching
- Anti-skid rubberized bushing/washer prevents movement and loosening of seat
- Molded in bumpers for added safety and comfort.
- UV Ingredient to maintain color
- Meets and exceeds ANSI Quality Standards.

“Why pay the same or more, for less quality and features?”
