

Plastic Seats Designed for New Construction and Maintenance

by:

PLUMBTECH™

Model 202 Elongated

Model 201 Round

What are the Needs and Opportunities for Builder, Maintenance, and Replacement Quality Plastic Seats?

- The new construction market is always evolving and searching for ways and means to bend the cost curve while maintaining the overall quality of the final product.
- The maintenance segment has similar needs, especially for a highly durable, stylish modern design, that is easy to install and maintain, and budget friendly.
- Additionally, the general replacement seat market decision makers are more conscious than ever regarding quality and extra value.
- The clear goal is to provide plumbing wholesalers with a competitive plastic seat, with reliable quality, that meets the consumer and contractor demands and budgets.

One Year Limited Warranty!

Features and Benefits of PLUMBTECH Plastic Models 202 & 201

- **Constructed of 100% virgin polypropylene-no fillers, extenders, or regrind.**
- **Strong & Durable - injection molded, high impact, chemically resistant.**
- **Ergonomically designed seat ring with contour provides greater comfort and support.**
- **Specially designed cover resists flexing, or “oil canning”.**
- **Corrosion proof POM nuts, bolts and washers.**
- **Adjustable hinges for a perfect, solid fit on any standard ANSI toilet bowl.**
- **Top mount design.**
- **Molded in bumpers for added safety and comfort.**
- **UV Ingredient to maintain color**
- **Meets and exceeds ANSI Quality Standards**

“Why pay the same or more, for less quality and features?”
